

**REMARKS**

Applicants respectfully request that the specification of the instant application be amended as provided herein to provide a description of Figure 8 to correct an inconsistency between the figures and the specification, as pointed out in the Notice dated September 12, 2006.

Applicants amendment states that "Figure 8 is a schematic illustration, not to scale, of an exemplary pilot plant and reactor used for catalytic activity testing." Support for this description may be found in paragraph 47 of the application as originally filed. No new matter is added.

Applicants respectfully submit that with this amendment, the application is ready to issue. If the Examiner has any questions or wishes to discuss the proposed amendment, the favor of a telephone call to Applicants' undersigned representative is requested respectfully.

Date: October 3, 2006
